

Polymer additives

10/2007

Antifogging agents:

Sorbitan monostearate

Antistatic agents:

Glycerol monostearate 60 %

Glycerol monostearate 90 %

Emulsifiers for emulsion polymerization:

Ethoxylated fatty alcohols

Fatty acids: stearic acid, oleic acid, lauric acid

Sorbitan esters and ethoxylates

Processing aids:

Cetostearyl alcohol

Cetyl palmitate

Distearyl phthalate

Ethylene-bis-stearamide

Glycerol monostearate

Hydrogenated castor oil

Pentaerythritol tetrastearate

Stearic acid

Stearyl stearate

Plasticisers:

Glycerides

Stabilisers:

Calcium stearate

Zinc stearate

Glycerol monostearate (PE foam)
